

**MEDIA RELEASE – FOR IMMEDIATE PUBLICATION**

## **First car agency at Bay Street**

The UK Car Company, a car agency that specialises in locating cars in the UK for delivery to Malta, has now opened at Level 0 at Bay Street, St Julian's.

The company was set up in 2010 and started operating in Msida but decided to move to Bay Street since it attracts such a high footfall, is easier to find and the company wants to be closer to its customers.

Managing Director Victor Karpati said The UK Car Company offers clients a quality service and peace of mind since they are only asked to make a deposit against shipping expenses and even this is fully refundable. Clients can even try out the car when it arrives in Malta before committing to the purchase.

“All clients need to do is to tell us what they are looking for and what their budget is, and we will do the rest,” Mr Karpati said.

“We will locate the car, have it checked – HPI history, overall condition, any faults or damage – and then look after shipping, delivery, payment of the Registration tax, new number plates and the checks by Transport Malta to ensure it is VRT compliant,” he added.
